LUCKY KUMARI

AI / ML Engineer | Python & Machine Learning Developer

Delhi/NCR, India | +91-7827843321 | kumarilucky01437@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven B.Tech Computer Science student with a strong interest in Artificial Intelligence and Machine Learning. Proficient in Python, SQL, and Machine Learning with hands-on experience building end-to-end ML solutions, recommendation systems, and predictive models. Completed AI/ML internships at Codomax and CodSoft, gaining practical experience developing real-world AI and software solutions. Shipped 6+ end-to-end ML/AI projects with measurable results (96.81% accuracy, 0.90 ROC-AUC) and a published research paper on LSTM-based text classification. Seeking an AI/ML Engineer role to apply technical skills and grow in a collaborative environment.

TECHNICAL SKILLS

- **Languages:** Python, SQL, Java
- **Machine Learning & AI:** Regression, Classification, Decision Tree, Random Forest, KNN, SVM, Naive Bayes, AdaBoost, XGBoost, SMOTE, Anomaly Detection, PCA, Clustering, Feature Engineering, Cross-Validation, Hyperparameter Tuning (GridSearchCV), Model Evaluation
- **NLP:** TF-IDF, Text Processing, Cosine Similarity, LSTM/Bi-LSTM, Intent Classification
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Scikit-learn, Streamlit
- **Tools & Platforms:** MySQL, SQLite, Git, GitHub, Jupyter Notebook, Google Colab, VS Code, PyCharm, Power BI
- **Currently Deepening:** Deep Learning, Large Language Models (LLMs), Fine-Tuning, Generative AI
- **Soft Skills:** Cross-functional Collaboration, Agile Methodology, Problem-Solving, Technical Communication

WORK EXPERIENCE

AI & ML Intern | *Codomax Digital Solutions* — Jul 2026 – Aug 2026

- Engineered and evaluated ML models in Python and Scikit-learn, applying preprocessing and feature engineering, in collaboration with senior engineers.
- Conducted cross-validation and metric analysis to select optimal, deployment-ready algorithms.

Artificial Intelligence Intern | *CodSoft* — Jul 2025 – Aug 2025

- Designed a rule-based NLP chatbot covering 20+ intent categories using text preprocessing and pattern-matching techniques.
- Created an AI-powered Tic-Tac-Toe game using the Minimax algorithm and a content-based movie recommender system.

Technology Job Simulation | *Deloitte (via Forage) — Virtual* — Jul 2025

- Completed 5 hands-on coding tasks in Deloitte's Technology Job Simulation, gaining exposure to Agile, real-world software engineering workflows and cross-functional collaboration.

KEY PROJECTS

TalentLens AI — Resume Intelligence Platform | *React, FastAPI, Python, TF-IDF, Random Forest, ANN, SQLite* — GitHub

- Architected a full-stack resume-intelligence platform that parses PDF/DOCX resumes and matches candidates to job descriptions using TF-IDF and cosine similarity.
- Delivered transparent ATS scoring, recruiter batch ranking, skill-gap recommendations, and interview-practice workflows with SQLite/SQLAlchemy persistence.

PDF-to-eCourse (GenAI Platform) | *Next.js, TypeScript, Groq API (GPT-OSS-120B), Supabase* — GitHub

- Developed an AI-powered platform converting PDF documents into structured courses (chapters, topics, lessons, key takeaways) using the Groq LLM API.
- Implemented Google OAuth, PDF parsing, progress tracking, full-text search, an AI tutor chatbot, and AI-generated quizzes.

Heart Disease Analytics & Risk Prediction | *Python, Power BI, Pandas, Scikit-learn, DAX, Random Forest* — GitHub

- Analyzed 299 heart-failure clinical records and benchmarked five mortality-prediction models; Random Forest achieved 0.90 ROC-AUC.
- Integrated patient-level risk scores into an interactive Power BI dashboard with KPI cards and decomposition-tree analysis.

Fake News Detection | *Python, NLP, TF-IDF, Streamlit* — GitHub

- Trained a Logistic Regression model on 44,898 news articles using TF-IDF features, achieving 96.81% classification accuracy; deployed via Streamlit.

Voice SQL Insight Agent | *Python, NLP, Speech Recognition* — GitHub

- Constructed a voice-enabled analytics agent that converts natural language questions into schema-validated, read-only SQL queries with conversational context support.

Movie Recommendation System | *Python, TF-IDF, Streamlit* — GitHub

- Built a content-based recommendation engine using TF-IDF and cosine similarity across 1,300+ Hollywood and Bollywood titles.

PUBLICATION

"Efficient Detection of Offensive Social Media Comments in Assamese Language Using LSTM" — IRJCS, Vol. 12, Issue 12, Dec 2025

- Co-authored a Bi-LSTM-based framework for offensive comment detection; benchmarked against Naive Bayes, Logistic Regression, Random Forest, and SVM.

EDUCATION

B.Tech, Computer Science Engineering — IIMT University, Greater Noida — SGPA: 8.81/10 | 2023 – 2027

Intermediate (12th) & High School (10th) — Sunrise Academy — 12th: 72% | 10th: 70%

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- **Oracle Certifications:** Oracle AI Foundation Associate | Oracle Generative AI Professional
- **Machine Learning with Python** — *Infosys Springboard*
- **Master ChatGPT** — *uniAthena*
- **Use of Generative AI in Software Development** — *IBM*
- **AIML Workshop** — *CETPA Infotech*
- **ChatGPT and AI Tools Workshop** — *Be10x*
- **Introduction to Soft Computing** — *NPTEL* | 71/100 in Proctored Exam | Elite Certificate
- **Programming in Java** — *NPTEL* | 82/100 | Silver Badge

Achievements

- **Kaggle Competitions** — *Kaggle*: Participated in the Titanic Survival Prediction (classifying passenger survival using ML) and House Price Prediction (regression model to predict house prices from property features) competitions.
- **EDTech 2024 Hackathon (24 Hours)** — *Innomatics Research Labs*: Built an OMR evaluation and scoring system using Python, OpenCV, Streamlit, and Hugging Face.
- **Smart India Hackathon (SIH)** — Participated in the Internal Round, organized by IIMT Group of Colleges, Greater Noida.
